EXPERIENCE **SENIOR iOS ENGINEER – NIKE, INC** **SUMMER 2014, JUNE 2015 – PRESENT**

- Part of a small team building the SNKRS iOS app, a premium experience targeted at sneakerheads
- Worked with other teams in integrating shared components and hitting internal service APIs
- Gained ownership over several areas of the app including Inbox, Profile, and Analytics
- Worked with Talent Acquisitions to interview Intern and College Grad candidates at University of Washington, and sat on various panels to talk about my intern and full-time experience

UNDERGRADUATE INTERN – INTEL CORPORATION **SUMMER 2013**

- Worked on My Media Library as an iOS developer, created various animations and assisted in improving application
- 2013 Intern Legacy-maker - demonstrated exceptional valor and integrity in completing the Intern Legacy Challenge

FOUNDER AND DEVELOPER – LINDAHL STUDIOS LLC **FOUNDED 2010**

- After Summer Session at Stanford, self taught myself ObjC & iPhone development
- Released Fraction Calculator Pro (active development: 2010-2011) in the App Store (retired)
- Brought brother on in 2017 to take on web dev client work and expand scope of the business

SELECT PROJECTS **WHITWORTH PLATFORM – WHITWORTH ASWU** **2013 - PRESENT**

Created the Whitworth Platform (which powers whitworthclubs.com & whitworthaswu.com) for the Associated Students of Whitworth University. Developed in PHP with a MySQL database. Originally started as a pro bono weekend project and currently on the third iteration moving from a custom built framework to using the Laravel framework. Features a CMS allowing clubs to create their own page and events, supports the FVP with admin experience, and digitalizes the process of club registration, rechartering, and budget requests. Added iOS app in Sept 2017.

ASK TRUE HOPE – TRUE HOPE CHURCH **EARLY 2013**

Created website (asktruehope.com) that allowed the community to post questions to the site and vote on their favorite question to be answered. Developed an extensive approval & settings backend (with features similar to phpMyAdmin) using PHP and MySQL; it features a JSON API to communicate with the front page along with email and push notifications.

EDUCATION **WHITWORTH UNIVERSITY – SPOKANE, WA** **2011 - 2015**

Computer Science B.S. w/ Theology Minor

STANFORD UNIVERSITY – STANFORD, CA **SUMMER SESSION 2010**

Programming Methodology (5 Credits) & Oceanography (3 Credits)

OTHER ACTIVITIES Volunteer Website Consultant at Bethany Church (bethanypc.com); transitioned site to Wordpress and assisted with various customizations and website updates.

Whitworth ACM Club President, (Sophomore & Junior year of College)

National Honor Society, Vice President and President (Junior & Senior year of High School)
